PROSPECTUS OF THE NATIONAL ERA,

VOLUME V.—1851.

WASHINGTON, DISTRICT OF COLUMBIA.

G. BAILEY, EDITOR AND PROPRIETOR; JOHN G. WHITTIER, CORRESPONDING EDITOR.

THE NATIONAL ERA is an Anti-Slavery, Political, and Literary Journal.

A brief summary of the principles and measures we are prepared at all proper times to maintain, will serve to show the general course of the *Drama*.

We hold—

That Slavery is repugnant to the *Natural Right*, the Law of Humanity, and the *Divine Will*; and the essential nature of our Republican Institutions;

That emancipation, without compulsory expatriation, is a high duty on the part of the Nation;

That there is but one safe and effectual mode of abolishing Slavery; and that by law, to be enacted by the States in Congress assembled;

That Slavery can have no lawful being in Territory under the exclusive jurisdiction of the United States;

That Congress has no right to extend the Territory now belonging at what may hereafter belong to the United States;

That the American Union, as the bond of Peace, the organ of one Language and one Civilization, the medium of Free Trade, and the common home of the numerous States and Territories stretching from the Atlantic to the Pacific Ocean; and that the Union, as the safeguard of acquiring millions from the Old World, and the means of expiating its Ambitions and intrigues, is of priceless value to the American People;

That the progress that has been made in the North is enough incentive and virtue in its members to extinguish the Slave; and that any measure that disturbs its harmonies, gilds its progress, or endangers its continuance, it inspires its energy, alights its flame, and quenches its light.

stability:

That the Federal Constitution ought to be so amended as to place the election of President in the hands of the People, directly, and to limit his term of office to four years, making him thereafter ineligible; and to still further amend so as to give to the People of the several States the right to elect directly by ballot their Senators, changing the term of office from six to four years;

That the Post Office Department ought to be separated from the Chief Executive, the Postmaster General and all the other officers of the Department to be made independent of the President, and to be placed under the control of the power of national law—just like sufficient ones lodged in the hands of the Postmaster General;

That postage on all newspapers, of a certain size, for all distances, be reduced to one cent; on all letters, under half an ounce, for all distances, to one cent.
